

CPR Insurance ADR Pledge

INSURANCE ADR PLEDGE

(Future Major Disasters)

In a catastrophic situation causing massive damage to many parties, such as a major hurricane, a very large number of insurance claims will be made, some of which may lead to disagreements. As part of an insurance industry initiative we agree as follows:

1. We reaffirm that we will process all such claims as quickly and fairly as possible.
2. We will meet promptly with other involved insurers under the auspices of the CPR Institute for Dispute Resolution to develop a system of alternative dispute resolution responsive to the particular circumstances, to resolve expeditiously and fairly any disagreements that arise, other than cases in which we believe there is fraud or in which the principal issue is one of policy interpretation.

Company Name Name and Title of Signer Date

CPR Institute for Dispute Resolution

Resolving Inter-Insurer Coverage Disputes
